## OPEN-ENDED QUESTIONS

### What are the primary strengths and weaknesses of the teaching assistant?

Comments
Really really helpful and informative. Always answered questions clearly in a timely manner. Was super dedicated.
Knew what he was talking about
None
He was so helpful, so understanding and so kind. I could not ask for a better TA.
I absolutely loved TA Yin. Very understanding, resourceful, and able to answer questions in a way that was more helpful than anyone else.
The main time I worked with him, I needed a clarification on a lab (why only a range of values produced a criteria which the problem statement implied any value). He told me my results were correct and which results to report but did not answer my question about why this was the case.
Answered questions in a timely manner. Not very judgmental, so that was good!
Hao Yin was extremely helpful and understanding it was always a pleasure to work with him. I appreciate his patience as well, I felt very comfortable asking questions and always left with a better understanding. It was a joy to attend his Office Hours.
He was really helpful during office hours and really good at explaining concepts. Any time I had a question on something, he would really make sure I understand all the concepts related to the question.
Hao was very enthusiastic about helping and provided just enough information to get you on the right track without revealing the answer.
EVERYTHING!!!! I LOVED THIS TA
Hao was an amazing TA! Every time I went to office hours, he was very knowledgeable and helpful. He was always able to answer our questions and constantly available to help.
